### MOODY'S ASSIGNS Baa3 RATING TO ISA

- *Investment grade for domestic and foreign currency*
- *Stable Outlook*

Moody's risk rating agency has rated ISA Baa3, investment grade, for both domestic and foreign currency with stable outlook, a fact that enables the company to carry on with its financial strengthening and building up of its consolidation strategy in international markets.

Moody's rating is in line with the BBB- rating assigned yesterday to the company by Fitch Ratings.

According to Moody's report, the rating given to ISA reflects the low risk profile of the business derived from its main operation as the leading energy transmission company in Colombia. The rating considers that cash flows are stable and predictable, and that Colombian regulatory framework is transparent despite some technical issues that are still under evolution.

ISA advances from point-to-point, seeking business opportunities and profitable growth, while generating shareholder value
